

Mabanol Clean 86 Neutral

Water-miscible neutral all-purpose and floor cleaner

Application

Mabanol Clean 86 Neutral is a water-miscible, neutral cleaning concentrate that is primarily used for cleaning industrial floors and plastic surfaces.

Properties and Benefits

Mabanol Clean 86 Neutral offers an excellent cleaning effect even when used in low concentrations and at low temperatures. The use of Mabanol Clean 86 Neutral thus contributes to energy savings and a better ecological balance. Mabanol Clean 86 Neutral is very compatible with sealed industrial floors.

The colorless, cloudy industrial cleaner can be used with a wide variety of floor cleaning devices as well as with high-pressure cleaners. In addition, Mabanol Clean 86 Neutral is free of biocides, silicates and borates.

Mixing temperature

Mix at room temperature. Provide water, add concentrate and mix in.

Remarks

The recommended use concentration depends on the type of cleaning process and the soiling of the surfaces.

Concentration in use: 3 % – 10 %

Temperature in use: 15 °C – 50 °C

The concentration of the in-use solution can be checked by using a refractometer. The refractometer reading must be multiplied by the refractometer factor to reach the desired concentration.

Data

	Unit	Value
Density at 15 °C	Kg/m ³	1.032
pH at 3 %		9,5
Refractometer factor	%/°Brix	7,5

Shelf life / storage conditions

Stable for 12 months when stored at a temperature of 5 °C to 40 °C in unopened containers

The above values may vary within the commercial limits.
