

Mabanol Dry Chain Spray

Very adhesive chain spray

Application

Mabanol Dry Chain Spray is a chain grease that offers outstanding penetration properties and excellent protection against corrosion. It can be used for lubricating chains, splines, spindles, contact surfaces, universal joints as well as guides and cogs.

Mabanol Dry Chain Spray is suitable for use in motorcycles and quads as well as various vehicles equipped with chain drives.

Shake the can before use.

Clean the surfaces as they must be dry, dirt and grease free before use. Apply a thin film. Wait about 2 minutes and spray again.

Dry well before use.

Properties

Mabanol Dry Chain Spray is light-coloured, very adhesive special lubricant formulated with synthetic components that provides outstanding protection against corrosion, ageing and wear as well as dripping or centrifuging. A grease-free, teflon-like, water-resistant sealing of the entire surface is ensured thanks to the high content of PTFE solid lubricant which also contributes to the prevention of dust and dirt adhesion.

Specialised additives allow best friction value reduction, outstanding damping properties and extreme UV-resistance.

EAN Code

400 ml can: 4260214891023

Data of product in spray can

	Test method	Unit	Value
Density at 20°C	DIN 51 757	g/cm ³	0,718
Flash point		°C	<21

Data after solvent evaporation

	Test method	Unit	Value
Temperature range		°C	-30 to +120
Wear factor (Oscillation friction and wear test)	DIN 51834		<100
Corrosion test (Humidity Cabinet)	ASTM D 1748	h	>2500
