

Mabanol Rust Remover

Rust Remover

Application

Mabanol Rust Remover is a rust solvent based on a mineral oil formulation with excellent penetrating properties, excellent corrosion protection and OMC2-additives for best friction value reduction thanks to micro-flow smoothing. The product can be used to remove rust in cars and trucks, agricultural and construction machinery, generators and other equipment. It is an ideal product for loosening extremely rusted and oxidized screws, nuts and bolts.

Spray Mabanol Rust Remover on the parts to be treated and allow it to take effect. In case of severely rusted parts the time for penetration can be extended.

Properties

Mabanol Rust Remover is free of resins, silicones and acids. Special corrosion protection additives ensure very good corrosion protection. Thanks to its optimum penetrating properties, the product offers excellent rust penetration and rust removal attributes and can be applied in tight spaces or uneven surfaces.
