

Mabanol Xenon Alpha Synth 0W-16

Low-friction engine oil based on synthetic technology

Application

Mabanol Xenon Alpha Synth 0W-16 is a high-performance low friction engine oil designed for use in the latest petrol-powered passenger cars, covering the requirements of turbo-charged and direct-injection engines as well as in hybrid-cars.

It can be widely used in a vast number of the latest petrol engines manufactured by Asian automakers.

Properties

Mabanol Xenon Alpha Synth 0W-16 is an SAE grade 0W-16 fuel-efficient engine oil that provides excellent cold-start performance even at the lowest external temperatures.

Mabanol Xenon Alpha Synth 0W-16 is suitable for year-round use in gasoline engines and ensures extended oil change intervals as well as high protection against sludge formation and coking.

This product contributes to emission reduction through high fuel economy and thus to environmental protection.
